

## CLASS ENVIRONMENT FOR 2022-2023

The classroom placement of all students involves a very thoughtful process by the teachers, principal, and special education staff. Many hours are spent in this process, with your child's best interests always at the forefront. The main ingredient in this process is trust. We, like you, want each child to have the best chance for success.

We consider each child's needs and strengths when we put classes together. The major factors we consider are: the child's demonstrated achievement in reading and math and other academic areas, the quality of the student's citizenship, their work and study habits, whether they require guidance to behave and perform optimally, their leadership ability, how they will fit in with the others in the class, and the boy-girl ratio in the class. Creating classes is a complicated process based upon our professional judgment and best assessment of each child.
