

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

Appendix T-1: Reopening Protocols for K-12 Schools

SCHOOL CAMPUS: Willow Elementary

SEE ATTACHED LA COUNTY COVID-19 RESPONSE TO TK-12 EDUCATION IN PERSON SUPPORT AND SERVICES NOTIFICATION FOR DETAILS ON ESTIMATED STAFF AND STUDENTS RETURNING TO CAMPUS

During this period when schools are generally restricted to remote learning, two types of on-site programming are permitted: (1) specialized services for defined subgroups of children who need in person services and support, as well as (2) ECE licensed child care and day care for school-aged children with proper licensure or waiver of same from Community Care Licensing (CCL). Specialized services for subgroups of students and day care for school-aged children must be carried out in compliance with all provisions for safe opening of schools detailed in this document. In addition, both types of programming must be provided to children either individually or in cohorts. Key elements of cohorting for both types of program are as follows.

All K-12 schools in California counties that are in Tier 1 of the State's Framework for Recovery, including Los Angeles County, are prohibited from reopening for in-person instruction except to address needs of students requiring specialized support and services, as described below. In compliance with this order and except for students needing specialized services, K-12 schools in Los Angeles County may open only for remote learning. During this period, employees and staff, as defined below, may report to school campus for work in order to support essential operations, implementation of remote learning, and, starting September 14, 2020, to serve children who qualify for specialized services. All measures to ensure the safety of employees and students in this protocol for Reopening of K-12 Schools and of the associated protocol for K-12 Exposure Management must be implemented and are applicable to all on-site personnel, including those providing specialized services. Waivers for opening of elementary (TK through grade 6) education are not currently being offered or permitted.

- For purposes of these two types of programs, a cohort is defined as a stable group of no more than 12 children or youth and no more than two supervising adults in a supervised environment in which supervising adults and children stay together for all activities (e.g., meals, recreation, etc.), and avoid contact with people outside of their group in the setting.
 - Note that while some children may be part-time participants in the cohort, other children cannot be added to the group to reach the maximum of 12 at all times. Aides assigned to individual children do not have to be counted as supervising adults. They must, however, be counted against the maximum of 14 individuals who can be included in a cohort.
 - While Local Education Agencies (LEAs) or schools may configure as many cohorts as are appropriate to meet student needs, the total on-campus population may not exceed 10% of the total student body at any one time.
 - A supervising adult is an adult assigned to one cohort of children or youth, who does not physically interact with any other cohorts. This includes child care staff, certificated or classified school staff, volunteers, participating parents or caregivers, or other designated supervising adult(s). An aide who is present to provide support to an individual child should be counted as a member of the cohort but not as a supervising adult.
 - A supervised care environment is an environment where multiple children or youth, from multiple families or households, are supervised simultaneously by an adult. This includes, but is not limited to, licensed child care facilities, licensed exempt child care programs, supervised programs on a school site while a school is not in session or is providing curriculum in a distance-learning format, or where some educational services are being offered to a subgroup of students as identified by a local educational agency on a school.

- LEAs and schools that choose to implement either or both of these on-site services while schools are otherwise closed to in-person instruction, must inform the Los Angeles County Department of Public Health of their plans prior to start of services. A reporting form can be found at [Small Group Instruction Notification Form](#).
- Important additional details for implementation of cohorts are available from the CA Department of Public Health at [Guidance for Small Cohorts](#).

Specific requirements for each of the two types of currently permitted on-site programming are as follows:

1. Specialized Services for defined subgroups of children

- LEAs and schools are not required to provide specialized, in-person services, but those that do so may serve an initial subpopulation of students with IEPs and students who are English Language learners. These students may be served as needed, provided that the overall number of students present on-site does not exceed 10% of total student body at any one time.
- Specialized services may include but are not limited to occupational therapy services, speech and language services, other medical services, behavioral services, educational support services as part of a targeted intervention strategy, or assessments, such as those related to English Learner status, Individualized Education Plans and other required assessments.
- Students who are part of a cohort may leave the cohort for receipt of additional services. Any additional services, however, must be provided one-on-one by the appropriate specialist in a secure space that is apart from all other people. No child may be part of more than one cohort.
- Schools must agree to cooperate with DPH with regard to screening, monitoring and documentation that will be required to permit careful scrutiny of health outcomes associated with this initial period of expansion.
- To the extent consistent with specialized needs of students in a given cohort, use of outdoor space for at least 50% of the school day is strongly encouraged
- Further information from the State concerning specialized services may be found at [Specialized Support and Services](#).

2. Day care for school-aged children and/or child care programs located in schools

- LEAs and schools that offer day care services for children at schools must be in compliance with the DPH protocol for Programs Providing Day Care for School-Aged Children or the Guidance for ECE Providers. Programs that wish to provide day care for school aged children at schools should communicate with their Community Care Licensing Regional Office to inquire regarding the availability of waivers for licensed child care facilities and license-exempt providers due to COVID-19. For additional information see PIN 20-22-CCP
- As in the case of specialized services, use of outdoor space is strongly recommended for learning as well as for meals, recreation and other activities in the course of the day

While schools are closed to all classroom instruction, in person assessments are permitted on campus for students who have or who require evaluation for Individualized Education Plans (IEPs) when such assessments cannot reasonably be performed elsewhere.

**COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD ***

The County of Los Angeles

Department of Public Health is adopting a staged approach, supported by science and public health expertise, to enable schools serving students from kindergarten through grade 12 to reopen safely. In addition to the conditions imposed on schools by the State Public Health Officer and the California Department of Education, schools must also be in compliance with these employee and student safety and infection control protocols.

Please note: This document may be updated as new information and resources become available. Go to <http://www.ph.lacounty.gov/media/Coronavirus/> for updates to this document.

This checklist covers:

- (1) Workplace policies and practices to protect employee and student health
- (2) Measures to ensure physical distancing
- (3) Measures to ensure infection control
- (4) Communication with employees, students and families of students and the public
- (5) Measures to ensure equitable access to critical services.

These five key areas must be addressed as your facility develops any reopening protocols.

Schools must implement all applicable measures listed below and be prepared to explain why any measure that is not implemented is not applicable to the setting.

NOTE: The terms “employees” and “staff” are used in these protocols to refer to individuals who work in a school facility in any capacity associated with teaching, coaching, student support, provision of therapies or personal assistance to individual students, facility cleaning or maintenance, administration, or any other activity required for the school to function. “Employees” or “staff” may include individuals who are: paid directly by the relevant school system, paid by entities acting as contractors to the school, paid by outside entities acting in collaboration with the school to serve students, paid by third parties to provide individual student services, or unpaid volunteers acting under school direction to carry out essential functions. The term “parents” is used in these protocols to refer to any persons serving as caregivers or guardians to students.

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

**A. WORKPLACE POLICIES AND PRACTICES TO PROTECT STAFF (“EMPLOYEES”) AND STUDENTS
(CHECK ALL THAT APPLY)**

- ✓ The school has a **COVID-19 Containment, Response and Control Plan** that describes the school’s comprehensive approach to preventing and containing the spread of COVID-19 on campus. The Plan, attached as APPENDIX A, at the end of this document, includes, but is not limited to the following elements:
 - ✓ A designated COVID-19 Compliance Team that is responsible for establishing and enforcing all COVID-19 safety protocols and ensuring that staff and students receive education about COVID. One member of this team is designated as a liaison to DPH in the event of an outbreak on campus.
 - ✓ A plan or protocol, for steps that will be taken immediately upon notification of school officials that any member of the school community (faculty, staff, student or visitor) tests positive for, or has symptoms consistent with COVID-19. The plan addresses:
 - Immediate separation of the case from the school community to self-isolation at home if notification occurs while the case is on-site. The plan must allow for temporary, on-site isolation of the case if arrangements are needed for the person’s return to their home.
 - Fact-sheets or other informational materials that are to be given to the case (or appropriate family member/s if the case is a child) covering regulations governing self-isolation and links to sites with further information.
 - ✓ A plan or protocol to initiate a School Exposure Management Plan consistent with DPH guidance that outlines procedures for:
 - Isolation of case(s);
 - Identification of persons exposed to cases at school;
 - Immediate quarantine of exposed employees and/or students; and
 - Assurance of access to testing for all exposed individuals within the school as the basis for further control measures.
 - ✓ A plan to report a cluster of cases (3 or more cases within 14 days) to the Department of Public Health via email at ACDC-Education@ph.lacounty.gov or by calling (888) 397-3993 or (213) 240-7821.
 - ✓ Contingency plans for full or partial closure of in-person school operations if that should become necessary based on an outbreak in the school or community.
 - ✓ District plan for surveillance testing for all school personnel:
 - District has identified a local laboratory to implement surveillance testing of school site personnel. This testing will be provided, on a rolling basis every two weeks, with a goal to test all staff members every eight weeks. Results are expected within 36 hours.
 - If required due to an outbreak at a school, or as instructed by Department of Public Health, District will either arrange for the local laboratory to come on-site, or, as an alternative, District provided health insurance providers will provide the testing on an individual basis.
 - All surveillance testing results will be reported to the Department of Public Health
 - ✓ Vulnerable employees (those above age 65, and those with chronic health conditions that would place them at high risk if infected) are assigned work that can be done from home whenever possible. If work-from-home is not possible for the employee, the employee is connected with Human Resources and made aware of available leave programs. Employees in this category should discuss any concerns with their healthcare provider or occupational health services to make appropriate decisions on returning to the workplace.
 - ✓ Work processes are reconfigured to the extent possible, consistent with academic requirements and

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

student support needs, to increase

opportunities for employees to work from home when practical.

✓ In compliance with wage and hour regulations, bargaining unit agreements, and school mandates, alternate, staggered or shift schedules have been instituted to maximize physical distancing where possible.

✓ All employees have been told not to come to work if sick or if they have been exposed to a person who has COVID-19. School officials have provided information to employees regarding [employer or government sponsored leave benefits](#), including their right to paid sick leave as guaranteed by the [Families First Coronavirus Response Act](#).

✓ Use of internal school facilities for non-school purposes (community meeting or events, on-site clinic visits by people who are neither students nor staff, etc.) will follow current Los Angeles County Public Health Guidelines. Care for school-age children is permissible in compliance with DPH Protocol for Programs Providing Day Care for School-Aged Children.

✓ Employee Screenings are conducted before employees may enter the workspace. Checks include a check-in concerning cough, shortness of breath, difficulty breathing and fever or chills and if the employee has had contact with a person known to be infected with COVID-19 in the last 14 days.

- Checks may be done remotely, through the Apache HR Employee Portal, or in person upon the employee's arrival. A temperature check may also be done at the worksite.

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

- ✓ Anyone entering school property (school buses as well as school buildings and grounds) who has contact with others (students, parents or other employees) is required to wear a face covering.
 - ❑ Alternative protective strategies may be adopted to accommodate students who are on Individualized Education or 504 Plans and who cannot use or tolerate cloth face coverings.

- ✓ Employees who have contact with others are offered, at no cost, an appropriate face covering that covers the nose and mouth. The covering is to be worn by the employee at all times during the workday when in contact, or likely to come in contact, with others.
 - ❑ Employees who have been instructed by their medical provider that they should not wear a face covering, should wear a face shield with a drape on the bottom edge, to be in compliance with State directives, as long as their condition permits in. A drape that is form fitting under the chin is preferred.
 - ❑ Masks with one-way valves should not be used.
 - ❑ Employees need not wear a face covering when the employee is alone in a private office or a cubicle with a solid partition that exceeds the height of the employee when standing.
 - ❑ A medical grade mask is provided to any employee who cares for sick children or who has close contact with any child with a medical condition that precludes the child's use of a cloth face covering.

- ✓ Employees are instructed to wash or replace their face coverings daily. Parents are instructed to ensure that children have clean face coverings.

- ✓ All individual employee workstations, or areas used by employees working as part of a team, allow for separation of at least 6 feet. Classroom furniture is arranged to permit a distance of at least 6 feet between the teacher's desk and the nearest student(s).

- ✓ In compliance with wage and hour regulations, breaks are staggered to ensure that physical distancing can be maintained in break rooms. Breaks are encouraged to be taken outside, or in individual rooms/work areas.

- ✓ All employees, on-site contractors, vendors and delivery personnel have been provided instructions regarding maintaining physical distancing and the required use of face coverings when around others.

- ✓ Break rooms, restrooms, classrooms, and other common areas used or visited by staff are disinfected frequently, on the following schedule:
 - ❑ Break rooms - Nightly
 - ❑ Restrooms - Mid-day and Nightly
 - ❑ Classrooms - Mid-day and Nightly
 - ❑ Laboratories - N/A
 - ❑ Nurse's office - Mid-day and Nightly
 - ❑ Counseling and other student support areas - Nightly
 - ❑ Front office - Nightly
 - ❑ Offices - Nightly
 - ❑ (auditorium, gymnasium, library if in use) Nightly

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

- ✓ High touch areas in staff break rooms are frequently disinfected, and commonly shared items, such as coffee pots, pots, and dishes, are taken out of service, replaced with single use items, or thoroughly cleaned before and after each use by a different person.
 - ✓ Disinfectant and related supplies are available to employees at the following location(s):
 - Every classroom and office department is provided disinfectant and microfiber wipes to be stored safely away from students.
 - Alcohol wipes are made available for common use equipment, and should be stationed nearby.
 - ✓ Hand sanitizer effective against COVID-19 is available to all employees in or near the following locations (check all that apply)
 - ✓ Building entrance(s), exit(s)
 - ✓ Central office
 - ✓ Classroom entrance(s), exit(s)
 - ✓ Staff break room
 - ✓ Soap and water are available to all employees at the following location(s):
 - Each staff and student restroom.
 - Inside (or adjacent) to each elementary classroom
 - ✓ Employees are offered frequent opportunities to wash their hands.
 - ✓ Each employee is assigned their own tools, supplies, equipment and defined workspace to the extent feasible. Sharing of workspaces and held items is minimized or eliminated.
 - ✓ Copies of this Protocol have been distributed electronically to all employees.
- Optional—Describe other measures:

**COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD ***

B. MEASURES TO ENSURE PHYSICAL DISTANCING BY STAFF, STUDENTS AND VISITORS (CHECK ALL THAT APPLY)

- ✓ Maximum number of employees permitted in facility to maximize physical distancing of at least 6 feet or with appropriate physical barriers where 6 feet of distancing is not possible, is noted in the table below.
- ✓ Maximum number of students permitted in facility to ensure that no more than 10% of the total student body at any one time and to maximize physical distancing of at least 6 feet or with appropriate physical barriers where 6 feet of distancing is not possible, is: noted in the table below.

School Site	Student Enrollment	Maximum # of Employees on Campus	Maximum # of Students with Small Group Instruction	Estimated Students Returning with Small Group Instruction
Chaparral ES	547	45	55	13
Lupin Hill ES	515	59	52	12
Round Meadow ES	516	49	52	16
White Oak ES	400	43	40	10
Sumac ES	353	41	35	12
Yerba Buena ES & Buttercup Preschool	555	58	55	10
Willow ES	599	54	60	15
Bay Laurel ES	506	45	51	23
Mariposa TK-8	348	36	35	8

Calabasas HS	1,819	141	182	2

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

✓ Measures are in place to ensure physical distancing of students on school busses. These include (check all that apply):

- ✓ A maximum of one child is permitted per bus seat.
- ✓ Use of alternating rows.
- ✓ Staggered school start times to permit more than one trip per bus at school start and close.
- ✓ Implementation of measures that make it easier for parents to drive students to school, such as availability of early opening with staff presence, expanded short-term parking at schools, and presence of staff at drop-off areas to assure safe movement of students from drop-off to school entry.

Implementation of measures that facilitate safe and age-appropriate student travel to school including Safe Routes to School walking groups, use of school crossing guards, bicycle safety and bike route programming.

- Parents have been engaged in working with school personnel to assure that alternative transportation options are appropriately supervised and have incorporated strategies for physical distancing and use of cloth face coverings.
- Building infrastructure is adapted to maximize support for bicycle commuting and capacity for bike storage is increased if possible.
- Other

✓ Measures are in place to ensure physical distancing as students, parents or visitors arrive at entry to school. These include (check all that apply):

- ✓ Students exit busses or other vehicles single file through one door.

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

- ✓ School employees are deployed to meet incoming busses, cars and students arriving on foot or by bicycle to assure distancing is maintained and avert gatherings.
 - ✓ Tape or other markings are used to help students maintain physical distancing as they line up to enter the school.
 - ✓ Multiple entrances and exits are used to avoid overcrowding at arrival and dismissals as long as all entrances and exits have adequate monitoring of arriving and exiting students and employees.
 - ✓ Teachers will be in their classrooms 15 minutes prior to the start of school, with rooms open for students to quietly wait for school to start.
- ✓ Measures are in place to ensure physical distancing as students, parents or visitors enter and move through the school. These may include (check all that apply):
- ✓ School employees are deployed in entrances to assure physical distancing as students enter, go through symptom checks and proceed to classrooms.
 - ✓ Schedules are adjusted to ensure that only one cohort is moving through common spaces (such as hallways and bathrooms) at a given time.
 - ✓ School employees are deployed in hallways throughout the day as needed to assure physical distancing as students move between classrooms or from classrooms to other school locations.
 - ✓ Elevator capacity, if applicable, is limited to the number of people that can be accommodated while maintaining a 6 foot distance between riders; during peak building entry and exit times, this number can be adjusted to a maximum number of 4 riders at a time for any elevator that does not allow for 6- foot physical distance between riders. All riders are required to wear cloth face coverings.
 - ✓ The following Measures are in place to avoid crowding on stairways:
 - Designation of up and down stairways
 - Staggering of breaks between classes
 - Monitoring of stairways by school staff
 - Limitations on number of people on a stairway at one time

Measures are in place to ensure physical distancing within classrooms. These include the following requirements (check all that apply):

- A cohorting approach has been adopted school-wide for small-group instruction, maintaining a stable group of no more than 12 children or youth and no more than two supervising adults in a supervised environment in which supervising adults and children stay together for all activities (e.g., meals, recreation, etc.), and avoid contact with people outside of their group in the setting, throughout the school day.
- Upon expansion to general-ed In-person instruction, class size has been limited to a maximum of 14 students in primary elementary grades.
- Upon expansion to general-ed In-person instruction, class size has been limited to 18 students in upper elementary grades.
- Upon expansion to general-ed In-person instruction, academic class size has been limited to 20 students in middle and high school grades scheduled in traditional classrooms.
- ✓ The school day has been divided into shifts to permit fewer students per class.
- ✓ Attendance is staggered to reduce the overall number of students in classrooms on a given day.

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

✓ Some classes have been

moved entirely online.

✓ Online class attendance is offered as an option for students for whom it is feasible and for students who may be at elevated risk in a regular classroom.

✓ Alternative spaces are used to reduce the number of students within classrooms. These may include:

- School library
- Auditorium
- Multi Purpose Room
- Theater Spaces
- Gymnasium
- Other

✓ Classroom furniture is set up or marked to ensure 6 feet between students at their desks/tables and between students and teachers (placement of desks/tables, use of floor and desk markings to indicate required distance, etc.) to the extent feasible. Where 6 feet of distance is not possible, physical barriers are used to minimize close contacts.

✓ Furniture designed for in-class group activities that bring students closer than 6 feet has been reconfigured, taped off from use, or removed from the classroom.

✓ Nap or rest areas in classrooms have students placed 6 feet apart and alternating feet to head.

✓ Teaching methods have been modified to avoid close contact between students in laboratories and other classes that may usually involve group activities.

✓ Recess and Gym class activities are selected to maintain physical distancing.

✓ Each Elementary Cohort has an individual Recess Bag & Equipment

✓ Locker rooms are currently closed

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

- ✓ Measures are in place to maintain physical distancing during school meals. These may include (check all that apply):
 - ✓ Grab-and-Go lunch bags are provided for students to take home. There will not be any on-campus lunch time.
 - ✓ To the extent possible, snacks are eaten in classrooms or outdoors, without any mingling of elementary school students from different classrooms.
 - ✓ If students line up to pick up food, tape or other markings are used to assure a 6-foot distance between any two students.
 - ✓ Staff are deployed during meal distribution to maintain physical distancing and keep elementary school students from different classrooms from mingling.
- ✓ Food preparation and service operations have been redesigned, where possible, to achieve physical distancing between employees. For example, kitchen and other back of house floors are marked to reinforce physical distancing requirements.
- ✓ Measures are in place to permit physical distancing in school areas used for student support services
 - ✓ Student support staff, including school employees (nurses, guidance counselors, therapists, etc.) and employees of adjunct support programs (clinicians, health educators, etc.) have been instructed to maintain a physical distance of at least 6 feet to the extent feasible while engaging in student support activities.
 - ✓ Furniture and equipment in school areas used for student support services are arranged to promote a 6-foot distance between any two students and/or between students and staff. Portable acrylic barriers have been made available for additional separation.
 - ✓ Where feasible and appropriate, therapeutic and support activities are conducted virtually.
 - ✓ Sharing of equipment and supplies is avoided where possible. Should equipment need to be shared, it must be sanitized before and after each use by a different student and/or employee
 - ✓ Staff offering student support services are provided with appropriate PPE per Cal OSHA requirements.
- ✓ Measures are in place to permit physical distancing in administrative areas of the school
 - ✓ Signage alerts visitors to the need to maintain a 6-foot distance from school office personnel.
 - ✓ Tape or other markings are used to define a 6-foot radius around reception desks or counters.
 - ✓ Work stations of administrative personnel have been arranged to permit 6 feet between individuals sharing a space or between office personnel and students or other staff required to visit the space.

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD ***C. MEASURES TO ENSURE INFECTION CONTROL (CHECK ALL THAT APPLY TO THE FACILITY)**

Screening is conducted before students, visitors and staff may enter the school. Screening must include a check-in concerning cough, shortness of breath or experience of fever and any other symptoms the visitor may be experiencing. These checks can be done remotely (using a digital app or other verifiable approach) or in person upon arrival. A temperature check with a no-touch thermometer is included in the symptom check at entry if thermal scanner indicates an elevated temperature.

- ✓ Adult visitors and staff who screen positive at entry or who report symptoms at any point during the school day are instructed to return home and self-isolate as required by Health Officer Order of July 1, 2020 (see [July 1 Isolation HOO.pdf](#)).
- ✓ Students who screen positive at entry or who report symptoms at any point during the school day are given a surgical mask and accompanied to a pre-selected isolation space (expanded health office) where they can remain while arrangements are made for their return home.
- ✓ The COVID-19 Compliance Team (see Section A) is informed of any positive screening result in the school and initiates the School Exposure Management Plan consistent with DPH directives
- ✓ Adult visitors and staff who have had close contact with an individual who has screened positive are instructed to return home to self-quarantine as required by Health Officer Order of July 1, 2020, until such time as it has been determined that the individual screening positive for COVID-19 symptoms is negative for COVID-19. (see [July 1 Quarantine HOO.pdf](#)).
- ✓ Students who have had close contact with an individual who has screened positive for COVID-19 symptoms are accompanied to preselected quarantine space where they can remain until arrangements are made for their return home. This space is apart from the one set aside for symptomatic students. It may be a separate room or an area within the same room that is set apart by a barrier. Once they return home, they are instructed to self-quarantine as required by Health Officer Order of May 1, 2020, until such time as it has been determined that the individual screening positive for COVID-19 symptoms is negative for COVID-19. (see [July 1 Quarantine HOO.pdf](#)).
- ✓ Screening of adults and of middle and high school age students includes a question about close contact with anyone at home, school or elsewhere that the individual has been told has tested positive for COVID-19.
 - Any adult who is screened for exposure and reports close contact with an infected person is instructed to leave the school, return home to initiate self-quarantine, and get testing for COVID-19.
 - Any middle or high school student who is screened for exposure and reports close contact with an infected person is provided with a surgical mask and accompanied to a predetermined space in the school while arrangements are made for them to be picked up by parents in order to initiate quarantine at home. Parents are advised to seek testing for the child.

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

Measures are in place to limit risk of infection due to visits by individuals other than staff and students. These may include (check all that apply):

- ✓ Visits to the school by individuals other than staff and students are avoided whenever feasible. Parents of enrolled students are encouraged to conduct business with school personnel remotely when possible.
- ✓ Visitors to the school other than parents of enrolled students are limited to those who are essential for the school's operation. Visitors are by appointment only and are pre-registered in a visitor log that includes a visitor's name, phone number and email address. Visitors are instructed to come to their appointments alone. If a visitor must be accompanied by another person (e.g., for translation assistance, or because the visitor is a minor, or has minor students) their information is captured in the visitor log.
- ✓ Visitors arriving at the school with non-enrolled children (e.g. younger siblings of students) must ensure that these children stay next to an adult, avoid touching any other person or any item that does not belong to them, and are masked if 2 or older and not at risk due to a respiratory condition.
- ✓ Movement of visitors within the school is limited to designated areas such as the reception or lobby area, offices, and conference or meeting rooms, to the extent feasible. Visitors are not permitted to interact with any cohorts.
- ✓ Visitors arriving at the school are reminded to wear a face covering at all times while in the school. This applies to adults and to children 2 years of age and older. Only individuals who have been instructed not to wear a face covering by their medical provider are exempt from wearing one. To support the safety of your employees and other visitors, a face covering should be made available to visitors who arrive without them and are required to be on campus.

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

Measures are in place to promote optimal ventilation in the school. These may include (check all that apply):

- ✓ At least 50% of classroom learning, meals, and activities have been encouraged and provided access to move to outdoor space whenever feasible, with weather and air conditions permitting.
- ✓ The school HVAC filtration system is in good, working order.
- ✓ HVAC systems are set to maximize indoor/outdoor air exchange unless outdoor conditions (recent fire, very high outside temperature, high pollen count, etc.) make this inappropriate.
- ✓ Portable, high-efficiency air cleaners have been installed if feasible (work in-progress, see below)
- ✓ Doors and windows are kept open during the school day if feasible and if outdoor conditions make this appropriate.
- ✓ Air filters have been upgraded to the highest efficiency possible.
- ✓ HVAC systems have been cleaned with full maintenance on ducting and coils performed prior to the start of school.
- ✓ District has purchased UV-C duct air purification systems for each HVAC filter in the district. These units are anticipated to be installed by the end of November.

Measures are in place to ensure appropriate cleaning and disinfecting of space, surfaces and objects throughout the school. These may include (check all that apply).

- ✓ A cleaning and disinfecting schedule has been established in order to avoid both under- and over- use of cleaning products.
- ✓ Buses are thoroughly cleaned and disinfected daily and after transporting any individual who is exhibiting symptoms of COVID-19. Drivers are equipped with disinfectant wipes and disposable gloves to support disinfection of surfaces as needed during a run. Frequently touched surfaces are disinfected after every completed bus route.
- ✓ Common areas and frequently touched objects in those areas (tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, elevator switches and buttons, touch screens, printers/copiers, grab bars, and handrails) are disinfected at least daily, and more frequently as resources allow, using appropriate products (see below).
- ✓ Use of shared objects is eliminated wherever possible, for example, water fountains have been converted to water bottle filling stations and individual water bottles are encouraged as an alternative. High touch playground equipment may be taken out of use and replaced with no-touch playground games, etc.
- ✓ Where individualized alternatives are not feasible, for example, in laboratories and art rooms where some equipment may have to be used by multiple students, objects and surfaces are cleaned and disinfected between users.
- ✓ Cleaning products that are effective against COVID-19 (these are listed on the Environmental Protection Agency (EPA)-approved list "N") are used according to product instructions.

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

- ✓ To reduce asthma risk disinfectant products on list N with asthma-safer ingredients (hydrogen peroxide, citric acid or lactic acid) are selected. Products which contain peroxyacetic (peracetic) acid, sodium hypochlorite (bleach) or quaternary ammonium compounds are avoided.
- ✓ Custodial and other staff responsible for cleaning and disinfecting school surfaces and objects are trained on manufacturer's directions, Cal/OSHA requirements for safe use and as required by the Healthy Schools Act, as applicable.
- ✓ Custodial staff and other staff responsible for cleaning and disinfecting are equipped with appropriate personal protective equipment, which may include gloves, eye protection, respiratory protection and other appropriate protective equipment as required by the product
- ✓ All cleaning products are kept out of children's reach and stored in a space with restricted access.

- ✓ Ventilation is maximized during cleaning and disinfecting to the extent feasible. If using air conditioning, use the setting that brings in fresh air. Replace and check air filters and filtration systems to ensure optimal air quality.
- ✓ Enhanced cleaning is done when students are not at school, with adequate time to let spaces air out before the start of the school day or separate session.
- ✓ Steps are taken to ensure that all water systems and sinks are safe to use after a prolonged facility shutdown to minimize the risk of Legionnaires' disease and other diseases associated with water.

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

✓ Restrooms, lobbies, break rooms, and lounges and other common areas are being disinfected frequently, on the following schedule:

- Restrooms: Twice per Day
- Lobbies/entry areas: Nightly
- Teacher/staff break rooms: Nightly
- Classrooms: Nightly
- Cafeteria dining area: Daily
- Cafeteria food preparation area Daily
- Front office Nightly
- Other offices Nightly
- Other areas Health Office - Twice per day

✓ Measures are in place to ensure use of appropriate face coverings by all staff, students and visitors at all times. These may include (check all that apply):

✓ Staff, parents and students are informed of the requirement for face coverings prior to the start of school and on a regular basis throughout the school year.

✓ All students over age 2 are required to wear face coverings at all times while on school property except while eating, drinking or carrying out other activities that make that preclude use of face coverings.

✓ Alternative protective strategies may be adopted to accommodate students who are on Individualized Education or 504 Plans and who cannot use or tolerate a face covering.

✓ Information is provided to staff, parents and students concerning proper use of face coverings, including the need to wash cloth face coverings after each day's use.

✓ Signage at the entry to the school, at the entry to the school office and throughout the school building reinforces this requirement on the proper use of face coverings.

✓ As feasible, and as provided by the state, two cloth face coverings are available to each student at the start of the school year. If that is not feasible, parents and students are given information concerning methods for making their own cloth face coverings.

✓ Parents of younger children are encouraged to provide a second face-covering for school each day in case the one a child is wearing gets soiled; this would allow for a change of the face covering during the day.

✓ Staff who are deployed at school entry or in hallways or other common areas to reinforce physical

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

distancing also remind students of rules concerning use of face coverings.

✓ Employees engaged in activities (such as provision of physical therapy or personal assistance to individual students) which may not permit physical distancing are equipped with appropriate personal protective equipment (gloves, masks, gowns, etc.). as appropriate.

✓ Staff taking care of a sick student are provided with a medical grade mask to wear themselves, and a medical grade mask for the student to wear (if it can be tolerated) until the student leaves the building.

NOTE: Staff and students who are alone in closed offices, walled cubicles or other private, enclosed spaces are not required to wear face coverings. Students may also remove face coverings when eating or napping or when wearing a face covering is otherwise impracticable (e.g., while showering, etc.). The school may consider whether it is appropriate for a teacher in the early grades to use a plastic face shield with a tucked-in drape below the chin as a substitute for a face covering to enable the youngest students to see their teacher's face and avoid potential barriers to phonological instruction.

✓ Measures are in place to ensure frequent hand washing by staff, students and visitors. These may include (check all that apply):

✓ Students and staff are given frequent opportunities to wash their hands for 20 seconds with soap, rubbing thoroughly after application, and use paper towels (or single-use cloth towels) to dry hands thoroughly. Each cohort will be assigned a designated bathroom; should more than one cohort be assigned to use the same bathroom, a system is used to minimize students from different cohorts using the bathroom at the same time.

✓ Younger students are regularly scheduled for frequent mandatory handwashing breaks, including before and after eating, after toileting, after outdoor play, and before and after any group activity.

✓ Staff are instructed to model frequent handwashing, using each entry into the classroom as an opportunity to reinforce healthy habits and monitor proper handwashing.

✓ Portable handwashing stations have been placed near all elementary rooms (if they do not have a sink inside the classroom) to minimize movement and congregations in bathrooms to the extent practicable.

✓ Ethyl alcohol-based, hand sanitizer is made available to students and staff at strategic locations throughout the school where there is no sink or portable handwashing station (in or near classrooms, rooms in which support services are provided, music and art rooms). Ethyl alcohol is preferred and should be used when there is the potential of unsupervised use by children. Isopropyl hand sanitizers are more toxic and can be absorbed through the skin.

✓ Hand sanitizer based on isopropyl alcohol is not used in the school given its potential toxicity and hand sanitizer is not out in the open in classrooms of children under age 9. Faculty and staff have been made aware of the risk of ingestion and that they should call Poison Control at 1-800-222-1222 if there is reason to believe that a student has consumed hand sanitizer.

✓ Hand sanitizer, soap and water, tissues and trash cans are available to the public at or near the entrance of the facility, at reception, and anywhere else inside the workplace or immediately outside where people have direct interactions.

✓ Measures are in place to ensure infection control in the school cafeteria or other site at which food is served or picked up.

✓ Buffet and family style meals have been eliminated.

✓ Food options include prepackaged meals, and/or food brought by students from home.

**COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD ***

✓ Physical barriers are in place where needed to limit contact between cafeteria staff and students.

D. MEASURES THAT COMMUNICATE TO THE CAMPUS COMMUNITY AND THE PUBLIC

See COVID-19 Containment, Response and Control Plan (last 7 pages)

Information was sent to parents prior to the start of school concerning school policies related to (check all that apply):

- ✓ Isolation and quarantine policies as they apply to students who have symptoms or may have been exposed to COVID-19
 - ✓ Options shared with families for COVID-19 testing if the student or a family member has symptoms or has been exposed to COVID-19
 - ✓ Who to contact at the school if student has symptoms or may have been exposed
 - ✓ How to conduct a symptom check before a student leaves home
 - ✓ Required use of face coverings
 - ✓ Importance of student compliance with physical distancing and infection control policies
 - ✓ Changes in academic and extracurricular programming in order to avert risk
 - ✓ Changes in school meals in order to avert risk
 - ✓ School policies concerning parent visits to school and advisability of contact the school remotely
 - ✓ Importance of providing the school with up-to-date emergency contact information and including multiple parent contact options
-
- ✓ A copy of this protocol is posted at all public entrances to the school.
 - ✓ Signage has been posted throughout the school reminding staff and students of policies concerning physical distancing, use of face coverings, and importance of hand washing.
 - ✓ Signage is posted at each public entrance of the school informing visitors that they should not enter the facility if they have symptoms of COVID-19.
 - ✓ The school has developed and circulated a communication plan in case full or partial closure is required due to a possible cluster of COVID-19 cases. (School Compliance Task Force)
 - ✓ Online outlets of the school (website, social media, etc.) provide clear, up-to-date information about building hours, visitation policies, changes in academic and extracurricular programming, and requirements concerning use of face coverings, physical distancing and hand washing.
 - ✓ Online outlets instruct students, parents and teachers on how to contact the school in case of infection or exposure.

**COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD ***

E. MEASURES THAT ENSURE EQUITABLE ACCESS TO CRITICAL SERVICES

- ✓ A plan for updating Individualized Education Plans (IEPs) and 504 Plans of students with special needs has been developed to ensure that education can continue without undue risk to the student.
 - This plan includes a method for proactive school contact with parents at the beginning of the school year to assure that issues related to the child's education and safety are being addressed.
 - Modifications to individual IEPs and 504 plans may involve remote learning, modifications to the classroom to accommodate student needs, school attendance in a separate area with few students, or a hybrid approach combining in-class and remote learning.
 - Steps taken to modify IEPs and 504 plans to assure student safety comply with relevant provisions of state and federal law.
- ✓ Administrative services or operations that can be offered remotely (e.g., class registration, form submission, etc.) have been moved on-line.

COVID-19 Containment, Response and Control Plan

The Las Virgenes Unified School District (LVUSD) has designed a targeted public health response to contain COVID-19 exposures. Leading the program is the District's COVID-19 Compliance Task Force, with individual site teams at each school.

Districtwide Team		
Compliance Officer	Melissa Foster	Lead District Nurse
Business	Karen Kimmel	Assistant Superintendent, Business Services
Personnel	Steve Scifres	Assistant Superintendent, Human Resources
Instruction	Clara Finneran	Assistant Superintendent, Educational Services
Facilities	Julie Pescetto	Director of Maintenance, Operations & Facilities
Elementary Site	Middle School Site	High School Site
Principal	Principal	Principal
Teacher-in-Charge	Assistant Principal	Assistant Principal
Office Manager	Office Manager	Office Manager
Plant Manager	Plant Manager	Plant Manager
Health Clerk (Liaison to District Compliance Officer)	Health Clerk (Liaison to District Compliance Officer)	Health Clerk (Liaison to District Compliance Officer)

**COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD ***

If school is notified of ONE confirmed case (student or employee)

- ❑ Health Clerk notifies District Compliance Officer, who then informs the Districtwide Team, which is available for site support.
 - ❑ Assistant Superintendent, Educational Services will assist Site Administrator with transitioning classroom(s) to distance learning
 - ❑ Director of Maintenance & Facilities will assist with disinfection support and notification of Maintenance Team regarding the location of exposure

- ❑ School Compliance Task Force ensures that the case follow [Home Isolation Instructions for COVID-19](#)
- ❑ School Compliance Task Force informs the case that DPH will follow-up directly with the case through the DPH Case and Contact Investigation Program to collect additional information and issue the Health Officer Order. School Compliance Task Force works with the case to generate a list of students and employees with exposure to the case during the infectious period and provides this information to the District Compliance Officer.

- ❑ District Compliance Officer provides DPH with the names and contact information of the case and identified contacts within one business day of notification of a confirmed case.

- ❑ A case is considered to be infectious from 48 hours before their symptoms first appeared until the time they are no longer required to be isolated (i.e., no fever for at least 24 hours, without the use of medications that reduce fevers AND symptoms have improved AND at least 10 days have passed since symptoms first appeared). A person with a positive COVID-19 test but no symptoms is considered to be infectious from 48 hours before their test was taken until 10 days after their test.

A person is considered to have been exposed if they are one of the following:

- ❑ An individual who was within 6 feet of the infected person for more than 15 minutes, even if a non-medical face covering was worn;
 - ❑ An individual who had unprotected contact with the infected person's body fluids and/or secretions of a person with confirmed or suspected COVID-19 (e.g., being coughed or sneezed on, sharing utensils or saliva, or providing care without using appropriate protective equipment).
-
- ❑ Students and employees that are identified to have an exposure to the case are notified by the School Compliance Task Force through a letter or other communication strategies (e.g., telephone, text, Robo-Calls). A Close Contact Exposure Notification letter template is available at: [Close Contact COVID-19 Notification Letter](#).
The notification should include the following elements:
 - ❑ Instruct students and employees with an exposure to the case to test for COVID-19, whether or not they have symptoms, and inform the school of test results. This will determine the extent of disease spread at school and serve as a basis for further control

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

measures. Testing

resources include Personal Healthcare Providers, Community Testing Sites: covid19.lacounty.gov/testing, and Urgent Care Facilities. Individuals who need assistance finding a medical provider can call the LA County Information line 2-1-1, which is available 24/7.

- ❑ Instruct exposed students and employees to quarantine for 14 days since last exposure to the case while infectious, even if they receive a negative test result during their quarantine period. A person who tests negative during the incubation period (i.e. time period between exposure to disease onset) may subsequently develop disease, with or without symptoms. Home Quarantine Guidance for COVID-19 is available at: [LA County Public Health Quarantine Guidance](#)
- ❑ Notification that DPH will follow-up directly with exposed students and employees through the DPH Case and Contact Investigation Program to collect additional information and issue the Health Officer Order for Quarantine.
- ❑ Districtwide Compliance Team will determine whether additional notification is needed to inform the wider school community about the school exposure and precautions being taken to prevent the spread of COVID-19. A LVUSD general notification letter template is available at: [COVID-19 Notification Letter](#)

**COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD ***

If school is notified of TWO confirmed cases (student or employee)

- School Compliance Task Force follows the checklist for one confirmed case
- School Compliance Task Force works with District Compliance Officer to assess whether the 2 confirmed cases have epidemiological links (i.e., siblings, present at the same place and time during the infectious period*).

**A case is considered to be infectious from 48 hours before symptoms first appeared until they are no longer required to be isolated (i.e., no fever for at least 24 hours without the use of medicine that reduces fever AND respiratory symptoms have improved AND at least 10 days have passed since symptoms first appeared). A person with a positive COVID-19 test but no symptoms is considered to be infectious from 48 hours before their test was taken until 10 days after their test.*

- Determination of epidemiological links between cases may require further investigation to understand exposure history and identify all possible locations and persons that may have been exposed to the case while infectious. NOTE: Epidemiologically linked cases include persons with identifiable connection to each other such as sharing a physical space (e.g. in a classroom, office site on campus, or gathering), indicating a higher likelihood of linked spread of disease in that setting rather than sporadic transmission from the broader community. A tool is available to assist in the assessment of epidemiological links at: [COVID-19 Exposure Investigation Worksheet for the Education Sector](#). For technical assistance on how to assess for epidemiological links, please contact ACDC-Education@ph.lacounty.gov.
- If epidemiological links do not exist, the school continues with routine COVID-19 exposure monitoring.
- If epidemiological links exist, school reinforces messages to students and employees on precautions to take to prevent spread at the school, including implementation of site-specific interventions.

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

If school is notified of THREE confirmed cases (student or employee)

- ❑ If the school is notified of a cluster of three or more confirmed cases (students and/or employees) within a 14-day period, in addition to following the checklist for one case, the District Compliance Officer proceeds with the following steps:
 - ❑ Report cluster to DPH Acute Communicable Disease Control (ACDC) Education Sector Team within 1 business day of notification of the cluster at: ACDC-Education@ph.lacounty.gov or call (888) 397-3993 or (213) 240-7821.
 - ❑ Complete *Line List for Cases and Contacts*, available at: [COVID-19 Case and Contact Line List for the Educational Sector](#) and submit to ACDC-Education@ph.lacounty.gov. For technical assistance on how to complete the line list contact ACDC-Education@ph.lacounty.gov.
 - ❑ The ACDC Education Sector Team will review *Line List for Cases and Contacts* to determine whether the outbreak criteria have been met. The ACDC team will contact the school within one business day of receipt to advise on the next steps.
 - ❑ If it is determined that outbreak criteria are not met: continue with routine COVID-19 exposure monitoring.
 - ❑ If it is determined that outbreak criteria are met, DPH Outbreak Management Branch (OMB) is activated.
 - ❑ An OMB public health investigator is assigned to coordinate with the school on outbreak management for the duration of the outbreak investigation.
 - ❑ School Compliance Task Force will submit the requested information, including updates to the *Line List for Cases and Contacts* to the OMB Investigator until the outbreak is resolved (at least 14 days since the last confirmed case).
 - ❑ Prior to reporting cluster to DPH ACDC Education Sector Team, District Compliance Officer will assess whether at least 3 cases in the cluster have epidemiological links. A tool is available to assist in the assessment of epidemiological links at: [COVID-19 Exposure Investigation Worksheet for the Education Sector](#). For technical assistance on how to assess for epidemiological links, please contact ACDC-Education@ph.lacounty.gov.
 - If epidemiological links do not exist between at least 3 cases in the cluster, the school continues with routine COVID-19 exposure monitoring.
 - If epidemiological links exist between at least 3 cases in the cluster, report cluster to DPH Acute Communicable Disease Control (ACDC) Education Sector Team at [ACDC- Education@ph.lacounty.gov](mailto:ACDC-Education@ph.lacounty.gov) or call (888) 397-3993 or (213) 240-7821.

School cluster

- ❑ At least 3 laboratory-confirmed cases with symptomatic or asymptomatic COVID-19 within a 14 day period in a group* with members who are epidemiologically linked, do not share a household, and are not a close contact of each other outside of the campus.
 - **School Groups include persons that share common membership, e.g., classroom, school event, school extracurricular activity, academic class, sport teams, clubs, transportation. Epidemiological links require the infected persons to have been present at some point in the same setting during the same time period while infectious.*

Appendix A: Steps for Managing Exposures to 1, 2, and \geq 3 COVID-19 Cases at School

**ONE
Case**

- 1) School receives notification of 1 confirmed case at school.
- 2) *Required:* School requests that case follow Home Isolation Instructions for COVID-19 (a).
- 3) *Required:* School informs case that the Department of Public Health (DPH) will contact the case to collect additional information and issue Health Officer Order for self-isolation (a).
- 4) *Required:* School works with the case to determine contacts that were exposed to the case at school while infectious.
- 5) *Required:* School notifies contacts of school exposure, requests contacts to follow instructions for self-quarantine (b) and test for COVID-19.
- 6) *Required:* School informs contacts that DPH will follow up to collect additional information and issue Health Officer Order for self-quarantine (b).
- 7) *Required:* School provides DPH with names and contact information for case and identified school contact. [COVID-19 Case and Contact Line List for the Educational Sector](#) and send to DPH by emailing: ACDC-Education@ph.lacounty.gov
- 8) *District Compliance Officer determines:* School may send a general notification to inform the wider school community (recipients determined by the school) of the exposure and precautions taken to prevent spread. [COVID-19 General Notification](#).

COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER * LAS VIRGENES USD *

Appendix A: Steps for

Managing Exposures to 1, 2, and ≥ 3 COVID-19 Cases at School

<p>2 Cases</p>	<ol style="list-style-type: none"> 1) <i>Required:</i> Follow steps for 1 confirmed case. 2) <i>Recommended:</i> If cases occurred within 14 days of each other, school determines whether epidemiological (epi) links exist (cases present in the same setting during the same time period while infectious). A COVID-19 Exposure Investigation Worksheet for the Education Sector tool is available to help assess for epi links. If Epi links exist, School implements additional infection control measures
<p>3+ Cases</p>	<ol style="list-style-type: none"> 1) <i>Required:</i> If a cluster of 3 or more cases occurred within 14 days of each other, school notifies ACDC Education Sector Team at ACDC-Education@ph.lacounty.gov. 2) <i>Recommended:</i> Prior to notifying ACDC Education Sector Team of cluster, the school assesses whether epi links exist for ≥ 3 cases. If epi links <u>do not exist</u>, continue with routine monitoring. 3) <i>Required:</i> ACDC Education Sector Team requests that the COVID-19 Case and Contact Line List for the Educational Sector be completed by the school to determine if outbreak criteria have been met. If outbreak criteria are met, DPH Outbreak Management Branch (OMB) is activated and an OMB investigator will contact the school to coordinate the outbreak investigation. 4) <i>Required:</i> During the outbreak investigation, the school provides updates to OMB investigator until the outbreak is resolved
	<ol style="list-style-type: none"> (a) Health Officer Order, cases directed to self-isolate until no fever for at least 24 hours (without the use of medicine that reduces fever) AND other symptoms have improved AND at least 10 days have passed since symptoms first appeared OR, if the case has no symptoms, until 10 days have passed after their positive test was taken. Home Isolation Instructions. (b) Health Officer Order, contacts directed to quarantine for 14 days since the date of last exposure to the case while infectious. Home Quarantine Instructions.
